

Proposal

That a river crossing to the west of Buckingham be provided to link the increasing housing to the west of Buckingham with the northern side of the River Ouse.

Below is a section from the July 2016 AV plan showing in grey “Commitments”
Fig1.

The river is blue and Ford Street Foot Bridge in green London Road and School Lane in Red

Areas BUC 025/028/059/029 are partially obstructed by the railway walk to gain access to the north side of the river and have to go via School Lane or into the centre of Buckingham

Areas BUC 052/030/032 although they do not have to negotiate the railway walk still have to go into the town centre.

The three areas all labelled BUC 051 to the north of the river Ouse have no choice but to go into the town centre to access any of the areas listed above.

On the south side of the river all the possible river crossings will link up with the river side walk extended from Fisher Fields

Location

Fig2. Three possible river crossing points from the riverside walk are: -

- 1) Red - round the boundary of Cox and Robinson
- 2) Green – through the grounds of the bowling club whose I think would like to move because of the flooding of their grounds.
- 3) Purple – across what may be private land

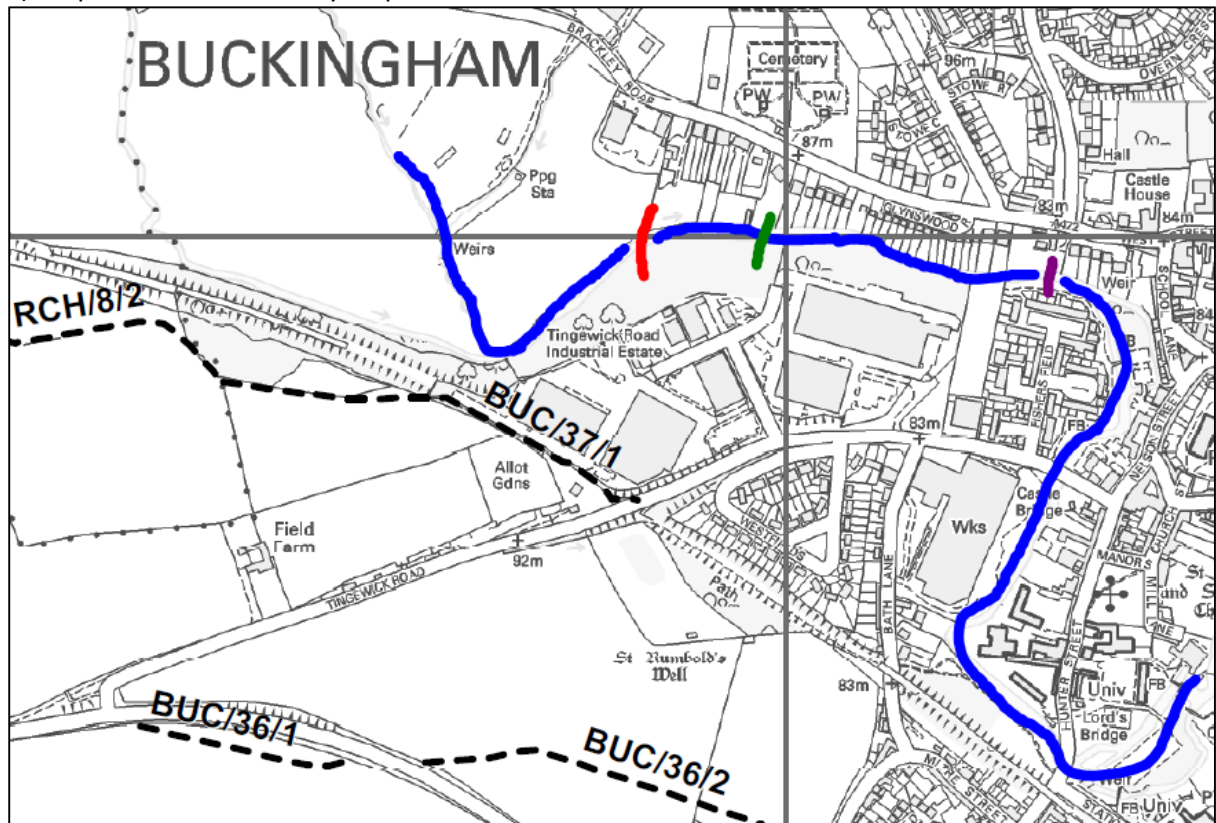

Fig4 same as Fig2 but using google earth.
