

Western Avenue to a crossing point at approximately at the Old Police station on Moreton Road.

Proposal

To make a 2.5 metre wide pedestrian / cycle path way from the junction of Western Avenue and Moreton Road with a zebra approximately opposite the Old Police station - see Fig1 & Fig2

Pedestrians travelling from / to the Buckingham town centre /.

Western Ave or

Beech Close or

Bradfield Ave or

Bellway Phase1 (Whitehead Way)

Do not have a formal crossing point to get to the Western Ave side of the road this needs to be provided at a point town side of Addington Road

Safety

Pedestrians needing to cross to Westerns Ave or nearby have to cross at what is effectively a five stream traffic flow where vehicles can appear at any time. People with push chairs and small children have great difficulty crossing this main road at this point. The traffic on Moreton Road (A413) based on a speed pipe survey carried out for MM parish council in November 2013 results in an estimated 660+ vehicles per hour at peak times see Fig4.

The pathway from the town centre on the western Ave side of the road ends at about No 62 Moreton Road see Fig2 and is non-existent from Western Ave towards the town.

Location

Fig1 Location of pathway indicated in yellow zebra crossing in hatched blue

Western Avenue to a crossing point at approximately at the Old Police station on Moreton Road.

Fig2 View towards the town centre and the approximate proposed crossing point.

Fig 3 View looking out of town where the path way stops on Moreton Road outside No 63.

Fig4 View looking towards the town centre at the junction of Moreton Road and Western Ave showing no pathway on the right hand side.

Western Avenue to a crossing point at approximately at the Old Police station on Moreton Road.

Fig 5 Traffic on Avenue Road and Duck Lake combine November 2013
